## **Listing of Federally Obligated Projects Fiscal Year 2009 (Oct. 1, 2008-Sept. 30, 2009)**

December 31, 2009

BCDC  G

BERKELEY-CHARLESTON-DORCHESTER  
COUNCIL OF GOVERNMENTS  
1362 McMillan Avenue, Suite 100  
North Charleston, South Carolina 29405  
(843) 529-0400 Fax: (843) 529-0305

## **Introduction and Background**

In an effort to improve the transparency of the expenditure of Federal transportation funds, Congress requires transportation agencies to publish annually a listing of projects using these funds. As revised by the SAFETEA-LU (Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users) 23 U.S.C. 124(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5403(g)(4)(B), enacted August 10, 2005, as Public Law 109-59, requires the cooperative development of:

“An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the categories identified in each metropolitan transportation improvement program (TIP).”

The State of South Carolina, public transit operators, and CHATS coordinated their efforts to generate the information contained in this report. This report covers funding obligated during the period from Oct. 1, 2008, to September 30, 2009, being Federal Fiscal Year 2009. To be included in this listing, an obligated project must be either entirely or partially located within CHATS' transportation planning area. The obligated amounts shown in the report are attributable to entire projects, including those portions located outside of the planning area. The planning area is currently 800 square miles comprised of the tri-county region's most urbanized areas. Generally, the study area contains of all the land expected to be urbanized within the next 20 years. It now consists of portions of all three counties in the BCD Region. CHATS is governed by a 47-member board representing governmental and transportation-related organizations from throughout its coverage area.

An obligation is the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that the Federal agency has authorized and for which it has obligated funds. Projects obligated in a certain fiscal year are not necessarily initiated or completed in that fiscal year, and the amount of the obligation will not necessarily equal the total cost of the project. For Federal Transit Administration (FTA) projects, an obligation occurs when the FTA awards a grant. For Federal Highway Administration (FHWA) projects, an obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.

## **Summary of Federally Funded Projects in CHATS Region**

This report indicates that over \$97.6 million in federal funds were obligated for transportation projects in the region for the Federal fiscal year 2009 (FFY 2009). The funding consists of over \$86.2 million (88.3%) of Federal Highway Administration (FHWA) funds for road, roadway operations, bicycle/pedestrian facilities, bridge projects, and transportation enhancements. Federal Transit Administration (FTA) funds, in the amount of \$11.4 million (11.7%), have been obligated for transit projects throughout the CHATS region.

The largest project undertaken last year, in terms of federal funding, is the capacity improvements on Interstate 26, with a federal obligation of \$30.3 million. The project consists of widening Interstate 26 from six to eight lanes, replacing the cable barrier in the center of I-26

with a concrete wall, constructing separate exit lanes, similar to those at Ashley Phosphate Road, for the Aviation Avenue and Remount Road exits. Additional improvements include reconstruction of the Aviation Avenue interchange, reconstruction of the Remount Road interchange, and realignment of Fain Street alongside Interstate 26.

### Report Organization

This report is intended to provide summary information of projects receiving federal funding during the Federal fiscal year 2009 in a format understandable by anyone interested in surface transportation improvements in the CHATS study area. The report is presented in

tabular format, listing information by project for which Federal funds were obligated. The table includes a project description, the County the project is located in, Federal funding source, Federal amount included in the TIP, the obligated amount, and the total funding authorized to the project.

### Guide to 2009 Obligated Project Listing

Below is a guide to some of the headings and abbreviations used in the tables on the following pages.

- County** – County the project is located
- SCDOT ID Number** – Identification number that SCDOT has assigned to track the project.
- Route Number** – Route designation and number (I = Interstate, US = United States, SC = State route, S = Minor state route, N/A = Local road or not applicable)
- Local Name** – Name of the road as known in the region
- Project Termini** – Identifies the limits of a project by a known landmark
- Work Type** – Describes the type of work to be completed
- Project Length** – Distance in miles between termini of the project
- Cost** – Amount of funding expended on the project during the fiscal year. This may differ from the federal obligation due to the expenditure of local or state money
- Total Cost** – Presents the total amount of funding expended on the project to date
- Federal Obligation** – Amount of federal funds committed to the project
- Total Authorization** – Total amount of federal funding approved by the Federal agency to construct the project
- Funding Source** – The federal program from which the funds were allocated (NHS = National Highway System, STP = Surface Transportation Program)

**MPO Area -** Metropolitan Planning Organization. Federally designated transportation planning agencies for urbanized area over 50,000 in population

### **Annual Listing of Obligated Funds**

Ninety days after the end of the fiscal year, the Annual Listing of Obligated Funds will be made publicly available through a similar process as the TIP with one exception; a draft of this document will not be distributed. Notice will be given through the regional and local newspapers. The Listing will be distributed and discussed at the regularly scheduled Technical Committee and CHATS Policy Committee public meetings along with being made available on the website and at the BCDCOG office. Public comment is welcomed and will be recorded.

### **The Annual Listing of Federally Funded Projects in the BCDCOG Region**

This report is organized into two sections: FHWA funding and FTA funding. The list includes the Federal project number, the community, a short description of the project, the date of obligation, the amount of obligation, the amount of deobligation, and any agency transfers of funds.

Obligation is defined as the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that has been authorized by the federal agency and funds have been obligated. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For FTA projects, obligation occurs when the FTA grant is awarded. For FHWA projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.

Deobligation occurs when funds that have been originally obligated to the State for a specific project has to return that promise of funds to the federal government. This generally occurs when money that has been set aside for a project has not been fully spent. Thus the promise of funds is returned to the federal government.
